

MONARCH SELF ADSHESIVE TAPES & FOAMS (I) Pvt LTD			
ALUMINIUM FOIL TAPE - TECHNICAL DETAILS			
S.NO	PROPERTIES	UNIT	SPECIFICATION
1	Material	NA	Aluminium Foil
2	Colour	NA	Natural
3	Thickness	Micron	30±5
4	Adhesive thickness	Microns	40 ± 5
5	Adhesive Base	NA	Acrylic base
6	Adhesive	NAD	S/S
7	Adhesion to Steel	N / inch	Min 10 N
8	Release	NA	Self release & silicone coated paper
9	Working Temperature	Deg C	-40 to + 150
10	Chemical Resistance	NA	Many Acids & Alkalis , Siliconen, Acetlene, Alcohols,Glycerol Etc
11	Application & Uses	NA	Aluminium foil tape use for excellent barrier to vapour and confirm to irregular surfaces, and can use for shielding and covering thermal insulation, Electrical,HVAC & Construction industries
			The tape is specially used where moisture and chemical resistance, thermal conductivity, flame resistance , heat resistance & light reflection required
